

Brush to Win Contest

Dear Parents,

Image Dental Care has invited us to take part in their Brush to Win program, which is designed to help your child learn the importance of brushing their teeth daily for good dental health. To participate in the program children are encouraged to brush twice a day – once after breakfast and once before bedtime.

Here is a calendar which your child can keep at home and post on a bulletin board or on the fridge. Please encourage your child to brush their teeth twice daily and mark the calendar on each day that they do. At the end of the month, please complete and sign the form at the bottom of the calendar and send it back to school with your child.

If you would like extra calendars to be sent home for siblings, just let me know or visit www.imagedental.ca/btw. It can be a fun way to get the whole family involved and thinking about the benefits of daily brushing.

If you would like to download brushing tips, learn more about your child's dental health and the Brush to Win program, go to www.imagedental.ca/btw and visit the Brush to Win section.

Happy brushing!
